

Please do NOT allow this law to be sidestepped.

I would like to be able to have my business phone on the list in addition to my home phone.

This law has improved our quality of life, no longer interrupting our daily routines with telemarketers. As it is I still get several computer generated calls a month, plus the local telemarketer attempts.

I wish you could do something about the SPAM jamming up my inbox.

Again , DO NOT allow this law to be sidestepped by big money.
